YOUR BIRTH CHART

Dear XYZ

I have evaluated in detail more than ten birth charts of different timings between 11:00 AM to 12:00 midnight of your birth day i.e. of 11th January, 1971 which have been prepared by working on the birth details and other information provided by you.

After going through all this process and after analyzing all these charts in order to rectify your time of birth, I have come to a conclusion that your accurate birth time must be **20:25 PM**. This is because the birth chart of **20:25 PM** is accurately predicting the events in your life in better way. Hence, in my opinion, the birth time of **20:25 PM +/- 5 minutes** should be your correct birth time. I would like to appreciate the detailed and honest information provided by you about your birth and chronological events which took place in your life.

Though the information provided by you about the physical features and countenance is having similarity with Cancer ascendant with Moon is placed in the 12th house and it is aspected by the Saturn, Sun and Mercury. In general, Cancer women have wheatish complexion, broad shoulders and oval face. Hence, after going through birth time rectification process, I was convinced that Cancer should be your birth ascendant as indicated earlier.

Based on the chronology of events took place in your life, you lost your father at a very tender age when you were passing through Jupiter main period and sub period of Venus. Your Mom passed away during December 2022 when you were passing through 4th house of the mother's Lord Venus sub period.

There is malefic exchange of aspect between Saturn and Mars in your horoscope and this resulted in two failed marriages in your life.

You got married for the third time when you were passing through Mercury main period and sub period of Saturn. You came to Canada i.e. abroad during 12th house Lord Mercury main period.

At present you are on medical leave and you are passing through the Venus main period and sub period of the planet Sun.

Findings of your birth time in near proximity

As per all above analysis it is concluded that the birth chart of **20:25 PM** is almost accurate +/- 5 minutes because it authenticates all the incidents of your life in better manner. So, you may use this time of birth for all your future astrological consultation.
