Dear

Please find our analysis on your **Personalized Life Together Analysis Report**.

We thank you for giving us the opportunity to analyse your birth charts.

It is not Vedic Astrology's purpose to replace an individual's responsibility to decide for themselves or to present a fait accompli forecast for the future. We believe that you control and shape your own destiny by your Karma and your efforts. However, this report tells you, how much and when the planets will be supportive for you or they will be challenging and can create obstacles and difficulties on your path.

We believe that stars will influence only 75%, and rest 25% is controlled by your own actions. However, sometimes that 75% may become critical over which you may not have any control.

With Warm Regards

Compatibility Analysis from Different Aspects (8-Fold Tests)

The horoscope matching that is done in traditional Vedic astrology is essentially based on the compatibility between Moon-signs in the respective charts of the couple. This is called "Kundali Milapak" report between the two charts.

Kundali Milapak is a unique and ancient 8-fold test of horoscope matching between a man and woman's charts for marriage. This ancient technique of Vedic Astrology was formulated about 3,000 years ago and compares various aspects of the natal chart taking the Moon sign in the chart as the primary factor.

The Natal Charts of the man and woman are drawn and comparatively tested in eight different ways. Each test has a score. While the maximum points that can be achieved under each test are different, the 8-fold test can yield a maximum score of 36 points. A score of 16 is deemed to be the minimum for a reasonable match. Marriages are not recommended for a result below 16

Modern Relevance

Since these tests were formulated 3,000 years ago and based on the social norms and the role of marriage in the ancient society, we have also made this ancient test applicable to the new millennium by pointing out the basis of how the tests were scored, so that you can apply your own judgment of how important a particular aspect is in your personal relationship.

Although the techniques and the basis of this comparison originated in ancient times, the analysis has not lost its relevance today. This analysis brings out the difference in personality and nature between two people in a quantitative and more precise manner than any other astrological tool. It proves to be very accurate and relevant even today in gauging compatibility and the areas of strengths and weakness in a relationship.

The Scoring System

In presenting you this analysis, we have maintained the integrity of ancient principles in the scoring system and the weightage given to various aspects. However, we want you to understand the principles behind it completely, so that you can understand the various aspects of your relationship in which you are completely compatible and where the problem areas may lie so that you are able to work on it.

In ancient times, the fundamental purpose of marriage was to carry on the lineage in a manner that increased the material and spiritual prosperity of the couple within the norms of social behaviors in that time. It is also to be understood that Women had been relegated to a subordinate or inferior role in the Man/Woman Relationship. The role of the woman, be it the Queen or the wife of an ordinary man in society, was at home and the primary responsibility was to look after the comforts of the husband, take care of the children as well as his parents and his entire family.

The system by which this test assigns scores is that when and if in a relationship, the horoscope chart of a woman rates higher and is superior in intellectual, mental or physical powers than the chart of the man's,

then the test will fail and there will be a low score or a zero score. The highest score is also given in this test in a woman's ability to be a mother.

We encourage you to study this test very closely for its ability to point out the difference in personality and ego between two different people and their strengths and weakness in maintaining a nurturing, caring and growing relationship over time.

I will advice both of you to go through this report very carefully and understand the significance of each of the 8 tests of compatibility and also the significance of the score obtained by each of the 8 tests.

The First Test: Mental Compatibility (*Varna*)

This test has a maximum value of 1 point and shows the basic potential of a person and the person's inherent skills and abilities. This also includes the personal egos of the partners and compatibility between their egos. A partnership in which the woman has higher intellectual and spiritual qualities will score low in this test.

For purposes of this test, personalities are divided into four classes to indicate potential and inherent abilities. They are as follows:

Brahmin or Priests - They are the intellectuals and philosophers. Their role in society is that of a Guru or a teacher. They were traditionally spiritual leaders and were not expected to perform physical labor. Society looked up to them and looked after them. They have a high development of spiritual and mental ability.

Kshatriya or Warriors - They form the leaders and the ruling class who are powerful people and master of strategy and battle. They were traditionally the Kings and protectors of society. They are considered very courageous and are decisive in their actions.

Vaishya or Merchants/Business people - They belong to the professional or business class of people who perform all the useful and economic functions of society. They are skilled in different crafts and professions, signifying tremendous abilities.

Shudra or Laborers/Service people - They belong to the normal hard-working class who had a tremendous sense of service to society. Majority of the work in society fell upon them; hence they also have an inherent sense of responsibility.

The Second Test: Power compatibility (Vasya)

For the purposes of this test, Vedic principles again divide personalities into 5 different categories reflecting the difference in power status. These are classified by symbol of different living creatures. The test scores the compatibility between these classifications and the inherent or natural balance of power. Once again, if a woman has a higher power status, the score will be low. The classifications are as follows:

Manav or Human –Humans are normally individualistic, they like to have control, have their own opinions and the power to discriminate.

Vanchar or Creature of the Jungle – Jungle creatures that are powerful and those that are higher in the food chain like Tigers, and Lions, etc. fall into this category.

Chatuspad or Four-Legged Creature – Animals that are less powerful like deer and goat and sheep fall in this category.

Jalchar or Creature of Water – Once again they have their own power and their own sphere of influence.

Keet or Insect – They are essential to any ecological balance and exert a quiet power that is essential for survival. Thus, they have their own strengths and area of influence.

The Third Test: Birth Star Compatibility (*Tara*)

This test has a maximum value of 3 points and indicates the health, well-being and longevity of the partners after marriage. This test reflects if marriage is favorable or unfavorable in promoting longevity and health of each partner.

For purposes of this test, the inter-relationship of the birth stars (*Tara*) are looked at and compared. Vedic Astrology rates the inter-relationship as being naturally auspicious or inauspicious. This test rates the relationship of the birth stars as reflected in each partner's natal chart. There are 9 categories of birth stars—Janama, Sampat, Vipata, Kshema, Pratyari, Sadhaka, Vadha, Mitra and Ati-mitra.
