Natal status of planet at a Glance

We have listed above the natal promise of all the 9 Vedic planets in the chart based on their status in the chart. There are likely to be lot of contradictions about their significance in different aspects of life. The same planet may be beneficial for a particular aspect in one's life by it's house location but it can be inauspicious for the same aspects in life because of the lordship of houses in the chart. One planet can be beneficial for a particular aspect in life and can promise great success and at the same time another planet can be most inauspicious and promise complete failure for the same aspects in life.

Usually different astrological effects do not cancel or neutralize each other. Both the positive as well as the negative effects can affect a person's life.

How much positive and how much negative will depend on the planet's strength, it's functionality whether auspicious or inauspicious, and it's dignity in the chart, and also it's strength in the chart.

These calculations are complex and are not only made for the natal chart but is also made on the different divisional charts which are derived from the natal chart. An astrologer has to examine all these quantitative and qualitative aspects of each planet in the chart, before he can make a final judgment about each planet on how much positive and how much negative effects the planet will be responsible for different aspects of life in a person. His experience will also play a key role to arrive at a final judgment.

We give below in a table the strength of each planet in the chart and what will be the overall role of the planet in a person's life as per the astrologer's judgment.

The Karmic Factor on your Finance

❖ Effort to Reward ratio as per your birth chart.

There are 3 kinds of people in this world. The first group are very lucky that whatever efforts they make they actually get greater rewards and recognition for their efforts compared to other people. This means they are lucky to reap more than what they sow. There are second group of people, they reap in exact proportion to what they sow. Finally the third group is somewhat unlucky, in spite of best efforts, the reward and recognition they get are not commensurate with their efforts.

They reap less than what they sow. We call this reward to effort ratio in the chart and is computed by dividing the 11th house ashtakbarga strength with the ashtakbarga strength of 10th house.

Your 10th House Score is : 28

Your 11th House Score is : 37

Reward to Effort ratio in your chart is: 1.32

Hence, you should be consistent in your efforts and it will definitely help you to gain great success in life.

As per Dasha system, the earliest real breakthrough in your financial life should be achieved during 1995 to 2000 when you were under the influence of Saturn main period. You entered into the professional realm during Saturn main period. This period may have remained more or less good and profitable period for you financially however there had been nags, strains, fret and fume as well. I may say that Saturn main period shall remain the most productive and golden phase in your career journey. You could then have immense power and domination over others. You would do pious and social deeds and in the end you would emerge as honest and wiser person due to the difficulties thrown in this period. The period will be filled with fluctuation and variation in the path but the final outcome would be satisfactory. Now you are passing through the strong malefic Ketu main period. Ketu is placed in the 6th house in exalted condition in your horoscope. This period will be mixed for you pertaining to the financial matter.

This indicates the progress of astrological signature for our capacity to accumulate material wealth. It projects our earning capacity through our own efforts and represents how we are managing the surplus between our income and expenditure of material possessions to create a continuous flow of wealth. Since such wealth can be used for the prosperity of our entire family and society, this index will also signify the material prosperity of our entire family and our extended family.

Windfall Index:

This gives the astrological signature for sudden unexpected fortunes and misfortunes. Though windfall is usually associated with gain, we are using this term to signify both unexpected gains and losses. These events are not expected, strike suddenly and seem to be unavoidable. The positive index value signifies unexpected monetary gains like unexpected inheritance, or gains in gambling, speculation and lotteries. It also signifies unexpected new opportunities and contacts, which will be profitable. The negative index value signifies the reverse--calamities, accidents, and losses in speculation, gambling and even death. As mentioned already, these are the results of past Karmas and Destiny and, according to us, this is that one index which probably cannot be altered by our own efforts.

The difference between the Disease index and this index is that the Disease index is not unexpected and sudden, but this one is. However, one can make contingency plans through one's efforts to minimize the impact.

Desire Index:

This gives the astrological signature of how our desires are being fulfilled. Thus, this index depicts actual material gain or income that we achieve through our efforts, creativity, and our vocations. A positive value and upward trend may indicate that our gain may be even higher than the efforts that we are actually putting. Similarly, a negative value and downward trend may indicate that our gain will not be commensurate to our efforts.

Detachment Index:

This gives the astrological signature of how our material and physical assets are getting detached from us. This index will depict our material outflow, expenditure or losses. Thus, a positive index will denote expenditures for profitable investments, or expenses for a noble cause like charity. In today's global economy, a positive index can also mean successful and profitable foreign relations and ventures. A negative index will indicate investments turning sour and expenditures purely for gratification of our senses and physical desires.
